REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee of Wells:

I present herewith the annual report of the schools. The attendance statistics are for the time intervening from January first to December thirty-first. The financial report covers the fiscal year ending January thirty-first.

The school census taken annually including pupils between the ages of 5 and 21 years amounted to 601 last April.

ATTENDANCE STATISTICS OVER A DECADE

Year	Fall Term Membership	Elementary Ave. Attendance	Secondary Ave. Attendance
1920	395	237	39
1923	415	255	63
1926	425	282	64
1930	445	320.9	78

It will be noticed that there is an increase in the total membership during the past decade, that the average attendance enrollment has increased about one hundred in number, and also that the number continuing education in high school is double the record of ten years ago.

COMPARATIVE SCHOOL SALARIES AND RATES

Town	Max. High Sch. Salary	Min. High Sch. Salary	Max. Elementary Salary	Min. Elementary Salary	High Sch. per Capita Cost	Elementary Per Capita	Municipal Rate	School Rate
Berwick	\$2000	\$1000	\$900	\$850	\$103.48	\$40.00	.063	.0133
Eliot	2250	1100	900	720			.025	.0066
Kennebunk	2400	1200	1200	900	106.86	50.57	.044	.0097
Kenneb'k'pt	2200	1100	1000	900	140.00	80.00	.0513	.0105
No. Berwick	1700	1100	900	612	80.00	53.00	.052	.0133
Sanford	3700	1150	1700	900	89.00	48.00	.0392	.0068
Wells	2200	1125	864	648	92.60	53.00	.0472	.0028
York	2400	1200	1720	720			.046	.0071

In this chart it will be noticed that Wells has the lowest school rate and it not paying as high an average elementary teacher's salary as most of its neighbors.

In 1920 the Wells school rate for \$.0024, municipal rate \$.024.

In 1930 the Wells school rate is \$.0028, municipal rate \$.0472.

Although the municipal rate has doubled in the past ten years it will be seen that the school rate has increased only \$.0004 which is almost negligible. The inference one might draw from a study of the above figures would indicate that Wells could easily develop and improve the school program without incurring an annual expenditure that would exceed the average, since the average school rate for this state is \$.0124.

To avoid repetition of many statements made previously, I wish to call your attention to the school report of 1929 in which I commented to some length on housing and the junior high school plan. The idea of providing better school conditions for Wells is not new. In 1920 the High School principal, Mr. McIntire, in his annual report, strongly recommended special courses, such as household arts, manual arts, and the introduction of courses which may be classified under Vocational Guidance. He said "Our ideal should be a high school building accommodating about 200 pupils with as much, and as good modern equipment as we can supply, a faculty of as good teachers as we can employ, and a six-year school, Junior and Senior High. Lest this last statement be not understood, I will state that what is meant is the combining of the upper grammar grades with the present high school and arranging a six-year curriculum, so that the uncertain jump from grammar to high school will be avoided and the high school mortality be lessened. This has many advantages over the present system. . . . Roads, bridges, etc., are little when compared with the life which is growing up, and the opportunity to give these young people the best that we can knocks at our door but once."

Now in 1930 we find that the increased enrollment, congestion, scattered groups, dissatisfaction, all contribute to a condition which makes urgent the need of changes for improvement. Therefore, the solution seems to be the erection of a suitable building at, or near Division Two. Why delay longer in constructing a fire-proof building that should stand indefinitely a source of pride to the town, teachers and children? How is it possible to prepare children under present conditions for this age of acceleration and competition? Outside of New England improvements have been rapid. Cleveland alone, as one example, in the last ten years has placed in nearly every school a gymnasium, auditorium, and vis-

ual education facilities, as well as many other improvements, such as character education courses, psychological and achievement testing of elementary pupils. We do not expect to have a city program in Wells, yet steps should be taken for a reasonable progressive development.

At the invitation of the Wells Parent-Teachers Association Mr. Richard Libby, agent for Rural Education of the State Department of Education, and Mr. Harrison Lyseth, agent for Secondary Education in the State, gave addresses on the Values and Advantages of Establishing a Junior High School in Wells, at the same time centralizing all schools along the dangerous Portland-Boston Highway. Four years ago, Mr. Libby made a similar recommendation.

* * * * *

In accordance with previous plans for expansion in Ogunquit, a bond issue amounting to \$20,000.00 was obtained to enlarge and build a new elementary school house. Excavation was begun the first of June. The school house was moved back to the center of the school grounds. Two large rooms were added to the front. An enlarged doorway, vestibule and stairs leading to basements and hallway were also included. Both front and rear exits automatically open by pressure against the doors from within. The recitation rooms leading off the main hallway are spacious, well-lighted and ventilated. The furniture for the lower grade room is movable. The other rooms are provided with the single pedestal seat and single pedestal desk. The toilets are placed in a fine cement basement where every provision for sanitary facilities has been considered and so constructed, according to designs approved by the State Commissioner of Health. The play rooms are especially enjoyed, since they are large enough for indoor games. The vapor heating system, one of the best, was installed according to contract and has operated very well to date.

General contract bids received for the construction according to specifications were \$24,000.00 and over. After further investigation it was found that by accepting special bids from individuals for each type of labor, such as plumbing, mason work, lighting, etc, that the building could be erected for less than any of these general contract bids. Accordingly, Mr. Raymond Brewster was employed by the school board to act as foreman of the construction. There is a small overdraft due to unavoidable contingencies such as excavations, grading about the walls, hardware, etc. The building is well constructed and at a saving to the Corporation. It was necessary to rush the construction the last

month of the work. The schools did not open until one week after the other schools began. I urge that a sum of money be raised to grade the Ogunquit school grounds and erect a fence next to the highway.

Repairs were made on the high school building in an endeavor to correct defects, especially loose and faulty windows. Seats and desks were fastened to the floor, plaster patched. The students and teachers have given freely of time and labor in applying varnish and decorating the interior. The ceiling in the main room is cracking and in a short time will fall unless strapped, or covered with sheet rock, or metal. Beating rains work in over the window casings and cause damage to the plaster.

The ceiling at Division 3 was covered with sheet rock and should be painted this season. Division 14 should be decorated on the interior.

Owing to absence from town Mrs. Mabel Hatch resigned from the school board. Mr. Roby Littlefield was appointed to serve in her place. Mrs. Nellie Littlefield also resigned from the school board to accept a teaching position in the town. After some delay Mr. Clyde F. Daggett was appointed to fill the vacancy.

During the past year we have been fortunate in having very few changes in our teaching force. These may be noted in the statistical table.

In conclusion, I wish to express my thanks and appreciation for your assistance and support in school affairs during the past year.

Respectfully submitted,

WALTER E. LANE,

Superintendent of Schools.

REPORT OF HIGH SCHOOL PRINCIPAL

To the Supt. of Schools, Superintending School Committee and
Citizens of the Town of Wells:—

Wells High School began the school year of 1929-30 with an enrollment of eighty-four. The attendance has been very good considering the distance a great many pupils travel to school.

The teaching staff is the same as last year. It is hoped that little change if any will have to be made this year as a teacher turnover always hampers school work.

The grades of work being done are of high calibre as reported by your superintendent, W. E. Lane, and by Harrison Lyseth, State inspector of secondary education.

There have been many changes in the physical equipment of the school and it is hoped that there will be many more made this year. The library classrooms and lavatories need prompt attention. Due to the new subject matter several new texts will be needed especially in scientific fields.

Athletics, although carried under a serious handicap, have been especially successful.

We have had many visitors and would like more to come and see our work.

I recommend a 38 week school year for another year in order to successfully compete with other systems where school is kept open 40 weeks. This of course is just for the higher grades.

Mr. Lane has been very prompt in supplying us with all material and the teachers have carried out their duties in an exemplary manner. I feel that the school has progressed rapidly and look for a greater improvement in the future. It has been indeed a pleasure to work in so wholesome and pleasant an atmosphere as we have here at Wells. I have sincerely admired your support and I hope for its continuance.

Respectfully submitted,

F. N. EATON, JR.

REPORT OF THE YORK COUNTY NURSE

To the Selectmen of Wells:

Gentlemen:

The health work accomplished in Wells during 1929 was as follows:

School			
High	Number pupils inspected		54
Division 1	"	"	14
Div. 2, Primary	"	"	27
Div. 2, Grammar	"	"	24
Div. 5, Grammar	"	"	35
Div. 5, Primary	"	"	17
Division 8	"	"	8
Division 9	"	"	19
Division 10	"	"	17
Division 14	"	"	15
Division 16	"	"	17

By inspected is meant that each pupil had eyes and ears tested according to the State regulation, the condition of the teeth, throat, skin, posture, and hair is observed, and a note is sent home to every parent urging them to take the pupil to the family doctor, dentist or oculist for treatment. There were 133 corrections in health made during 1929. A health record is kept of the students from the time they enter until they leave school. This card is kept in the teacher's desk and a copy is filed in the nurses' office. By these cards we can detect the corrections made each year.

Other work in the county included two Farm Bureau meetings, one at the Branch, and another at the Corner. Thirty ladies were present at these meetings, and a demonstration and talk were given by the nurse on invalid cooking. The nurse arranged to have a local child operated upon at the Goodall hospital free. Five home visits were made to this family. Another family was visited thirty-two times to help clean up a skin condition, supply food and clothing. One boy was taken to Dr. Smith for a skin condition. May 17, a girl was taken to the Children's hospital to be examiner at the orthopedic clinic for a hip condition. Twenty home calls to school children were made to instruct mothers about diet and home sanitation. Time spent in Wells during 1929 amounted to 196 hours, or 24 1-2 days. You are due six more days before town meeting. The other rural schools will be inspected before then.

Yours respectfully,

KATHERINE FERGURSON, R. N.,

January 30, 1930.

York County Public Nurse.

WARRANT

To FREEMAN E. RANKIN, a constable in the Town of Wells, in the County of York and State of Maine:

GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the said Town of Wells, qualified by law to vote in the town affairs, to meet in the Town Hall, in said Town on Monday, the tenth day of March, A. D. 1930, at nine o'clock in the forenoon; then and there to act on the following articles, to wit:

First—To choose a moderator to preside at said meeting.

Second—To see if the Town will vote to have one or more road commissioners.

Third—To choose a Town Clerk, three Selectmen,, Assessors and Overseers of the Poor, Town Treasurer, Collector of Taxes, one member of the Superintending School Committee for three years, Auditor of Accounts, and all other necessary Town Officers for the year ensuing.

Fourth—To see what sum of money the Town will vote to appropriate for the support of the poor and other incidental town charges for the year ensuing.

Fifth—To see what sum of money the Town will vote to appropriate for the support of a Free High School for the ensuing year.

Sixth—To see what sum of money the Town will vote to appropriate for the support of Common Schools for the year ensuing.

Seventh—To see what sum of money the Town will vote to raise for supplies and apparatus for the schools for the year ensuing.

Eighth—To see what sum of money the Town will vote to raise for Text Books for schools for the ensuing year.

Ninth—To see what sum of money the Town will vote to raise for repairs for school houses for the year ensuing.

Tenth—To see if the Town will vote to raise eight hundred dollars (\$800.00) for superintendence of its schools for the ensuing year.

Eleventh—To see what sum of money the Town will appropriate for the payment of the High School graduation for the ensuing year.

Twelfth—To see what sum of money the Town will vote to raise and appropriate for the transportation of the High School scholars.

Thirteenth—To see what sum of money the Town will vote to raise for water rent for its schools for the year ensuing.

Fourteenth—To see what sum of money the Town will vote to raise for maintenance of highways, roads and bridges for the year ensuing.

Fifteenth—To see what sum of money the Town will appropriate for snow removal for the year ensuing.

Sixteenth—To see if the Town will vote “yes” or “no” on the question of appropriating and raising money necessary to entitle the town to State Aid as provided in Section 19 of Chapter 25 of the Public Laws of 1916.

Seventeenth—To see if the Town will vote “yes” or “no” on the question of appropriating and raising money necessary to entitle the Town to additional aid and a bonus of twenty-five per centum as provided in Section 21, Chapter 25 of Revised Statutes of 1916.

Eighteenth—To see if the Town will vote to raise the sum of five thousand three hundred and ten (\$5,310.00) for the improvement of the State Road as outlined, in addition to the amount regularly raised for the care of highways, roads and bridges, the above amount being the maximum which the Town is allowed to raise under Section 21, Chapter 25 of the Revised Statutes of 1916.

Nineteenth—To see if the Town will vote to raise the sum of twelve hundred and sixty (\$1,260.00) dollars for improvement of the section of the State Aid Road as outlined in the report of the State Highway Commission, in addition to the amount regularly raised for the care of highways, roads and bridges, the above amount being the maximum amount which the town is allowed to raise under Section 18, Chapter 25 of the Public Laws of 1916.

Twentieth—To see if the Town will vote to raise the sum of twelve hundred eighty-three dollars and forty cents (\$1,283.40) for the town's share of the joint expense of the State Highways.

Twenty-first—To see what sum of money the Town will vote to raise for an application of asphalt on the roads known as “the Eldredge Corner road”, “The Millie Road”, “Moody Beach Road” and “Atlantic Avenue.”

Twenty-second—To see what sum of money the Town will vote to raise for repairing the Drakes Island Road.

Twenty-third—To see what sum of money the Town will raise and appropriate for the payment of the town's indebtedness and interest thereon.

Twenty-fourth—To see what action the Town will take in regard to the payment by the Ogunquit Village Corporation of the money due to the Town of Wells from said Village Corporation, for costs of the Ogunquit Elementary schools, which are now past due and remaining unpaid, under petition of Fred W. EXCISE TAX

It is interesting to note the increase in revenue to the Town derived from the excise tax on automobiles. Below is a detailed report of the number of cars taxed, the revenue received for the fiscal year 1930, the number of cars taxed as passenger cars and trucks together with the valuation of the same for the purpose of taxation. I have taken the year 1929 for a comparison of the new system with the old mode of assessment. One can readily see the advantages under the new system. Under the old system of

taxation the automobile was assessed as property owned as of April 1st of each year. The taxpayer could very easily avoid payment the first year. Then again we rarely received any tax from non-residents who use our highways during the summer months. Under the new system the Town receives added income from these temporary sojourners.

Report of the Superintendent of Schools

To the Superintending School Committee of Wells:

I herewith present the annual report of the schools of Wells. The attendance statistics are for the time intervening from January first to December thirty-first. The financial report covers the fiscal year ending January thirty-first.

The annual school census taken April first included all persons between the ages of five and twenty-one years, and amounted to 608.

The State Department of Education with the assistance of prominent educators is rebuilding an elementary course of study for the schools of Maine.

In the past few years there has been a noticeable improvement in the character of the text books that have been introduced. Modern text books are not placed on the market until they have passed satisfactory and severe tests. Self-help activities for the pupils, carefully graded diction, graded reasoning steps, and with diagnostic tests following each process are found especially in the study of arithmetic, language, reading, etc. In the primary grades emphasis is placed on oral expression, pronunciation, personal bearing, speed with comprehension in the study of reading. Reading is regarded as basic and most important in as much as ability to read is necessary in order that a reasonable degree of success may be attained in all other subjects.

Special Courses in connection with Junior High and High School work are very desirable. A Domestic Arts course, or Manual Arts course, or both (usually required in all larger units) would be of great benefit to the girls and boys of Wells. Special courses that met with state approval would be financially supported by the state to the extent of about two-thirds of the expense, leaving about one-third the expense to the town.

A Domestic Arts Course for our girls, properly carried out, has inestimable values. Its teachings have an important place in every household. Thrift, economy, a proper knowledge of handling all household details, instruction in dietetics, including a knowledge of balancing rations, children's health needs, and the fact that statistics show that women today purchase over 75% of

the family needs, are a few of the things for us to consider. A survey of the activities of our high school girl graduates show that a large percentage of the number at some time marry and carry on family life. A Manual Arts Course is no less valuable for the boys (as well as to many girls). It is urgent that citizens take heed concerning these facts, and consider what may be done for our children's welfare.

In recent years several teachers have attended summer terms of school with a considerable degree of benefit and profit. During the fall term a number of teachers attended an extension course under the direction of a professor from Boston University and Harvard held at Kennebunk. All expressed satisfaction for the helpful suggestions obtained. The High school principal has been taking an extension course at the University of New Hampshire.

The York County Public Health nurse has given more time to the individual needs of the pupils in town for the past year. The procedure has been to give all pupils a check to ascertain if possible their physical condition. Pupils who have shown indications of needing medical attention have been reported to parents for further examination by the family physician. Later, by following up the isolated cases and urging parents to give prompt attention to these children, she eventually obtains the corrections needed. During the year the nurse has been of direct benefit to the school system in several instances.

Repairs and improvements made consist chiefly of the following: Four toilets were installed in the high school in rooms adjoining the lavatories. Two book cases were made, and one built over, near the Latin room. The first floor was trussed up with several steel posts. The science room ceiling and walls were whitened, weather strips were applied to doors and windows. A loosely rocked cesspool was made near the old cesspool to care for the overflow. A new top over the metal smoke stack was necessary as the old one in use had badly rusted and blown to one side. Several movable chairs were purchased to provide for an increased enrollment. Several seats and desks were obtained for the Division Two Grammar room. In this room the seven large windows on the northern exposure were weather stripped. These weather strips to date have noticeably helped in maintaining a uniformity in room temperature, and hence have reduced the fuel expense. On the rear of the Ogunquit school house gutters were placed. The grounds in front were graded, but more grading should be carried out during the summer vacation. A fence was erected on the line next the highway. The Ogunquit Improvement

Society was instrumental in providing a new flag pole and clocks for school rooms, also in putting up play ground material on two sides of the grounds. Several interested parents gave labor and material. The ceiling and walls at Division 3 were painted, as nothing had been done since putting up a sheetrock ceiling in the small room. A new floor was laid at Division 9 which promptly afforded more warmth and comfort. A new floor was also laid at Division 10. A sheet rock ceiling was put up at Division 14, and various other repairs made about the doors. A new book case was built in a convenient place in the front of the room.

Some of the repairs and improvements to be considered in the near future are as follows: A few seats and desks should be purchased to complete the number needed in the Grammar room in Division 2. Due to the increasing numbers in Ogunquit, a few seats should also be purchased for these schools. A few square feet of slate blackboard should be obtained each year. New floors are needed at Divisions 4 and 12. The interior of Division 14 should be painted, especially the ceiling. The lighting for the primary grades at Division 2 could be corrected and improved at a small expense. An iron septic tank should be purchased for the high school. Other school rooms should have minor repairs attended to during the summer vacation. Box stoves in the one room schools should be jacketed and weather strips placed about the windows.

Through the generosity of Mr. and Mrs. Fred W. Bayley, and their interest in the public schools of Wells it is their plan to offer the town, as a trustee, a \$500.00 bond, the accruing interest of which to be subject to the direction and control of the Superintending School Committee. The understanding is that from the interest a sum of ten dollars be awarded annually to the senior who has an outstanding record in his or her school life. The remainder of this sum may be used to support the school library, or as the school board may direct. The first annual award was made to Emery Hutchins, at the last high school graduation.

Reports from the High School Principal and from the Music Supervisor may be found elsewhere in this report.

In conclusion, I wish to express my sincere thanks and appreciation for your continued support in school affairs for the past year.

Respectfully submitted,

WALTER E. LANE,

Superintendent of Schools.

REPORT OF SUPERVISOR OF MUSIC

To the Superintendent of Schools:

I herewith submit the annual report as Music Supervisor of the Schools of Wells.

The pupils in all schools have made rapid progress in the rudiments of music, such as syllable reading, rhythm, etc. They are all very enthusiastic about their work, and appreciative of results. The teachers do excellent work and are indeed very co-operative with me. There is a music appreciation course well started now which will do much toward giving the pupils a proper foundation for a good music education. Two rhythm bands have been started, one in Ogunquit in the primary grades, the other at Maryland Ridge, Division 7. There are many possibilities in store for music with the help of a larger sum of money at our disposal.

I am glad of this opportunity to thank the Superintendent, the teachers, and the pupils for their cooperation and helpfulness during the year.

Faithfully submitted,

AZALEA WILSON,

Music Supervisor.

WELLS HIGH SCHOOL REPORT 1930-31

There were eighty-five pupils enrolled at Wells High school at the beginning of the school. Forty-three were girls and forty-two were boys. They were divided in classes as follows:

Seniors, 15; Juniors, 14; Sophomores, 27; Freshmen, 29.

The courses offered this year are: Classical, Scientific, General.

The specialized "commercial course" was abandoned this year as a general education seemed to be more in demand in this community. Courses are still given along many lines but we do not pretend to do the work of the "business college."

I feel there is a real need for some courses in "domestic arts" but I am not prepared to suggest any definite plans for such a course due to present housing conditions. If this course was run

under the Smith-Hughes Act a large part of the expense would be cared for by the state.

The school has been especially successful in its extra curricula activities. The citizens have made this possible by attending all school functions in sizable crowds.

The high school building was greatly improved last summer by increasing the lavatory space and by making many other minor repairs, but it is still far from a modern school plant. The work of Mr. Clarage is exceptionally efficient in all ways and I feel that much praise is due him.

Mr. Clyde Wakefield was added to the teaching staff this year to supply the vacancy left by Miss Mary Lord. He has proven himself a desirable teacher.

Miss Ethel Weymouth, my first assistant, is doing even better work than before and I know this needs no explanation to the citizens of Wells. Miss Weymouth obtained her master's degree at Cornell University this year.

Miss Beatrice McGrath attended the summer session at Bates College this past year and is doing superior work in her subjects.

The present school committee is very much interested in the schools and I believe the schools are sure to improve under their administration and rival the schools of other up-to-date communities.

Other facts of interest:

Our graduates are making fine records in higher institutions.

The lunch-room is well handled by Mrs. Howard.

The school day has been increased thirty-five minutes.

The school year has been increased to thirty-seven weeks.

Transportation to and from school has been efficient.

We have had many alumni back to visit as well as many others interested in our work.

It has been a real pleasure to work in this community during the past three years. It is my earnest desire to improve Wells High School so that it stands out in the State of Maine as one of the finest secondary schools. With more equipment for certain activities I feel confident that this aim may be realized.

I sincerely thank the citizens of the Town of Wells, the superintending school committee, the superintendent of schools, the teachers and pupils for their hearty cooperation and support in the past and I sincerely hope I may merit it in the future.

WARRANT

For Annual Town Meeting

To FREEMAN E. RANKIN, a constable in the Town of Wells, in the County of York and State of Maine:

GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the said Town of Wells, qualified by law to vote in the town affairs, to meet in the Town Hall, in said Town on Monday, the ninth day of March, A. D. 1931, at nine o'clock in the forenoon; then and there to act on the following articles, to wit:

First—To choose a moderator to preside at said meeting.

Second—To see if the Town will vote to have one or more road commissioners.

Third—To choose a Town Clerk, three Selectmen, Assessors and Overseers of the Poor, Town Treasurer, Collector of Taxes, one member of the Superintending School Committee for three years, Auditor of Accounts, and all other necessary Town Officers for the ensuing year.

Fourth—To see what sum of money the Town will vote to appropriate for the support of the poor and other incidental Town charges for the year ensuing.

Fifth—To see what sum of money the Town will vote to appropriate for the support of a Free High School for the ensuing year.

Sixth—To see what sum of money the Town will vote

to appropriate for the support of Common Schools for the year ensuing.

Seventh—To see what sum of money the Town will vote to raise for supplies and apparatus for the schools for the year ensuing.

Eighth—To see what sum of money the Town will vote to raise for Text Books for schools for the ensuing year.

Ninth—To see what sum of money the Town will vote to raise for repairs for schools and school houses for the year ensuing.

Tenth—To see if the Town will vote to raise eight hundred dollars (\$800.00) for superintendence of its schools for the year ensuing.

Report of the Superintendent of Schools

To the Superintending School Committee of Wells,

I herewith offer the annual report of the schools of wells. This report is necessarily brief as my term of service has been for two months prior to the end of your fiscal year. As usual the financial report deals with expenditures made from February 1, 1931, to January 30, 1932.

The school census of April 1, 1931, which includes all persons between the ages of five and twenty-one, was 609.

There seems to have been few changes in the list of teachers employed. Another room was opened at Ogunquit and so the total expense for teachers is increased. There has been a much larger number of pupils from York in attendance at Ogunquit. The increased amount of tuition received has practically balanced the added expense for the Fall term.

During the closing weeks of the Fall term citizens, pupils and school officials were deeply grieved by the death of Mrs. Beatrice M. Perry. She served the school and community faithfully and well. Although I personally did not know her I feel the school and community have suffered a great loss.

The Commercial course at the high school has been discontinued. It was originally intended to offer typewriting during this present year but only two pupils wished to study that course. It was not considered advisable nor a profitable use of a teacher's time to continue the work under those conditions.

A Domestic Arts course was introduced in the high school last fall. This course is aided by the state. According to the statement of your former superintendent in last year's report we may expect when the course is fairly complete and approved by the State Department of Education, reimbursement for about two-thirds of the entire expense. Such approval would demand that a teacher devote her entire time to the Domestic Arts course. At present the teacher is using about one-third of her time for that special work so we shall receive about one-third of the full amount of the state subsidy.

I think that probably the usual minor repairs were made during the past summer but I am unable to refer to them definitely.

The rural schools especially are in need of repairs. Many of them are not well lighted. Their toilet facilities are extremely poor. These rooms occupied by our children should be neat and attractive. If children are to appreciate pleasant and attractive surroundings why should they not have them in the schools so far as possible?

Reports of the Principal of the High School, the teacher of Domestic Arts and the Supervisor of Music are included in this report.

I wish to express my appreciation of the cordial cooperation given by the teachers and school officials during my term of service.

Respectfully submitted,

JOHN S. CARVER.

REPORT OF SUPERVISOR OF MUSIC

To the Superintendent of Schools:

I herewith submit the annual report as Music Supervisor of the Schools of Wells.

The pupils in all schools have made more rapid progress this year than last in the rudiments of music. They are very enthusiastic about their work and appreciative of results. Three more rhythm bands have been started this year, one at Division 14, one at Division 3, and one at Division 10. Rhythm bands do a great deal toward helping pupils to get a feeling for rhythm, which after all is a very important thing in music, and also in helping reticent pupils to express themselves more freely. A number of boys and girls in the grammar grades are studying orchestral instruments this year. Mrs. Beatrice Spiller teaches the violin and Mr. Waak teaches trumpet, saxophone and sousaphone. Those studying trumpet are Richard Hutchins, Ogunquit, and Robert Littlefield, Div. 2. Those studying violin are Barbara Newhall, Div. 7, Lenwood Carroll, Div. 2, Beulah Stevens and Elmer Tower, Div. 5 (Ogunquit) and Evelyn Lord of the high school.

A glee club has been organized in the High school which consists of about twenty-five members. A High School orchestra has also been organized which consists of six members. They are Vera

Yorke and Jennie Bennett, piano, Louise Mayo, Muriel Perkins and Evelyn Lord, violin, Edwin Littlefield, drums.

Mrs. Spiller has organized an orchestra at Ogunquit grammar school which consists of five members. Two Harmonica bands have been started, one in Ogunquit, the other at Div. 2.

There are many possibilities in store for music in the future which we have not yet realized.

I am glad of this opportunity to thank the superintendent, the teachers and the pupils for their cooperation throughout the school year.

Faithfully submitted,

AZALEA G. WILSON,

Music Supervisor.

WELLS HIGH SCHOOL REPORT, 1931-32

There were ninety-five pupils enrolled at Wells High school at the beginning of the fall term. Forty-eight were girls and forty-seven were boys. They were divided in classes as follows: Seniors, 15; Juniors, 26; Sophomores, 24; Freshmen, 30.

The courses offered this year are: Classical, Scientific, Domestic Arts and General.

The course in "domestic arts" was introduced into the curriculum this year and is proving very satisfactory to those students who are taking the course.

The extra-curricula activities comprise dramatics, debating and athletics.

A special course has been given those interested in debating and several class debates have been held. Wells High has joined the Bates interscholastic debating league and will engage in preliminary debates with Berwick Academy, Traip Academy and North Berwick High.

The seniors have produced three one-act plays to date. Two three-act plays are to be presented before the close of the year.

Wells enjoyed a most successful season in football due to the interest taken by both the student body and the citizens of the community.

Miss Ethel Weymouth, my first assistant, has taken over the guidance program in addition to her other work. Her training

for this work is proving very valuable to the students who need advice in selecting their courses.

Miss Dorothy Scott was added to the teaching staff this year as the instructor in Domestic Arts and is doing fine work.

The school year was saddened by the sudden death of Mrs. Beatrice McGrath Perry, who was a very capable and much loved teacher. In her passing both the student body and the town suffered a tremendous loss.

Miss Esther Baker was elected to succeed Mrs. Perry as language instructor and in the brief time she has been here has proven very efficient.

Mr. Howard has handled the transportation very efficiently.

Mrs. Howard has run a very satisfactory lunch room.

Mr. Clamage has been very faithful and reliable.

I have greatly enjoyed my work in Wells this year. It is my desire to do everything in my power to make Wells High School an outstanding secondary school and to serve the parents and citizens in every way possible.

I sincerely thank the citizens of Wells, the superintending school committee, the superintendent of schools, the teachers and pupils for their cooperation this year and I sincerely hope we may work together for some time to come.

AURA W. COLEMAN.

DOMESTIC ARTS

A Domestic Arts course which consists of sewing, home nursing and first aid, has been introduced into the High School this year.

The first half year has been devoted wholly to sewing and the selection of clothing. A double period each day is devoted to the course. Its objective is to obtain ability in both the making and selecting of clothing.

In the making or construction of clothing, the student acquires skill in the control of hand and machine technique, learns constructive processes and judgment in their use, learns how to use and make patterns and to cut economically, how to fit garments, an appreciation of good color and texture combinations, good proportions, and all other aspects of design that must be considered in any constructive activity.

In the selection of clothing, the student learns to intelligently appreciate clothing values, such as knowledge of quality in fabrics and of standards of workmanship in construction, appreciate color, good design and cut in garments, and ability to select clothing adapted to the characteristics of a particular person and realization of the social and economic problems involved in clothing expenditures.

Home nursing and first aid are the units taught the second half year. These are helpful in giving the girls practical instruction to enable them to meet unusual situations in the home.

In order that the Domestic Arts course may be of more benefit, it is necessary that other subjects be included. Altogether too frequently in the past, a limited interpretation has been placed upon Domestic Arts and it has been thought of as cooking and sewing, wherein in reality it includes a study of foods from every angle, in relation to health, their composition, their use in the body, selection and buying, their preparation, the planning and serving of meals and preservation and storing of food; a study of problems that relate directly to the home and family such as care and management of the home, selection and buying of furnishings for the home, care of children, social life and hospitality in the home and relation of the home to the community.

It will be impossible to carry on any advanced course in this subject without the addition of necessary equipment. If such equipment is obtainable, the next unit offered will be the study of foods which includes the various subtopics listed above.

For Annual Town Meeting

Monday, March 14, 1932

To Freeman E. Rankin, a constable in the Town of Wells,
County of York and State of Maine: GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Wells, qualified by law to vote in town affairs, to meet in the Town Hall in said Town of Wells on Monday, the 14th day of March, A. D. 1932, at nine o'clock in the forenoon, then and there to act on the following articles, to wit:

First—To choose a moderator to preside at said meeting.

Second—To see if the Town will vote to have one or more road commissioners.

Third—To choose a Town Clerk, three Selectmen, Assessors and Overseers of the Poor, Town Treasurer, Collector of Taxes, one member of the Superintending School Committee for three years, Auditor of Accounts and all other necessary Town Officers for the year ensuing.

Fourth—To see what sum of money the Town will appropriate for the Support of the Poor and other incidental town charges for the ensuing year.

Fifth—To see what sum of money the Town will vote to appropriate for the Support of a Free High School for the ensuing year.

Sixth—To see what sum of money the Town will vote to appropriate for the Support of Common Schools for the year ensuing.

Seventh—To see what sum of money the Town will vote to raise for Supplies for Schools for the year ensuing.

Eighth—To see what sum of money the Town will vote to raise for Text Books for Schools for the year ensuing.

Ninth—To see what sum of money the Town will vote to raise for Repairs for School Houses for the year ensuing.

Tenth—To see what sum of money the Town will vote to raise for Superintendence of its schools for the year ensuing.

Eleventh—To see what sum of money the Town will vote for the payment of the High School Graduation for the ensuing year.

Twelfth—To see what sum of money the Town will vote to raise for Transportation of its High School Scholars.

Thirteenth—To see what sum of money the Town will vote to raise for Water Rent for its schools for the year ensuing.

Fourteenth—To see what sum of money the Town will vote to raise for Maintenance of Highways, Roads and Bridges for the year ensuing.

Fifteenth—To see what sum of money the Town will vote to raise for Snow Removal for the year ensuing.

Sixteenth—To see what sum of money the Town will vote to raise to build State Aid Roads for the year ensuing.

Seventeenth—To see what sum of money the Town will vote to raise for its share of the joint expense of the State Highways.

Eighteenth—To see what sum of money the Town will vote to raise for an application of tar or asphalt on its roads for the ensuing year.

Nineteenth—To see if the Town will vote to grant, raise and appropriate the sum of \$1,071.00 for the maintenance of improved sections of third class road, or to be used in connection with the third class apportionment made by the State for the improvement of third class roads, in accordance with the provisions of Sections 43 to 47 inclusive of Chapter 28, Revised Statutes of 1930, as amended by Chapter 151, Public Laws 1931.

Twentieth—To see what sum, if any, the Town will recommend to take from the joint state aid account for the purpose of applying bituminous surface treatment to state aid roads built within the past five years in accordance with the provisions of Chapter 271, P. L. 1931.

Twenty-first—To see if the Town will vote to grant, raise and appropriate the sum of \$500.00 to be expended on the highway beginning at Merriland Meeting House extending to the site of Division No. 15 schoolhouse formerly, thence to Robert Parsons' residence, also including the highway, beginning at the site of said schoolhouse by the residence of Elbridge Hilton and George S. Hobbs to the State Highway near Wakefield's Corner, so called, under petition of Reginald Welch and others.

Twenty-second—To see if the Town will vote to grant, raise and appropriate the sum of \$500.00 to be expended in repairing the road from the Depot north and west as far as possible under petition of Elmer R. Beyea and others.

Twenty-third—To see what sum of money the Town will vote to raise to be spent on the Charles Chase road, so called, in conjunction with the Special Resolve money granted by the State of Maine.

Twenty-fourth—To see if the Town will grant, raise and appropriate the sum of three thousand dollars (\$3,000.00) to be expended for asphalt on the portion of the following described road built in 1930, and for an extension of the same road being on the easterly end of the road leading from the State road near the Central Telephone office, westerly and past the residence of Everett Littlefield to the South Berwick line; said money to be expended for a gravel and asphalt road, building westerly towards the South Berwick line as far as the money will permit, under petition of Frank E. Kimball and others.

Twenty-fifth—To see if the Town will raise and appropriate three hundred dollars (\$300.00) for cement buttments at the Joshua Hilton bridge, so called, on the road leading to Tatnic, under petition of L. M. Hilton and others.

Twenty-sixth—To see if the Town will vote to accept a way known as "Highland Avenue" leading from Town Road to Webhannet Street at Wells Beach, under petition of L. S. Bradford and others.

Twenty-seventh—To see what sum of money the Town will vote to raise for cutting and burning bushes on its State and State Aid roads.

Twenty-eighth—To see what sum of money the Town will vote to raise for the Town's Indebtedness and Interest thereon.

Twenty-ninth—To see what action the Town will take in regard to the payment by the Ogunquit Village Corporation of the money due to the Town of Wells from said Village Corporation; for cost of the Ogunquit Elementary Schools, which are now past due and remaining unpaid, under petition of Fred W. Bayley and others.

Thirtieth—To see what sum of money the Town will vote to raise to pay the Ogunquit Village Corporation for for the amount due it from the Town of Wells.

Thirty-first—To see if the Town will vote to raise the sum of two hundred and fifty dollars (\$250.00) for the observance of Memorial Day.

Thirty-second—To see if the Town will vote to raise twenty-five dollars (\$25.00) for prizes for the Boys and Girls Agricultural and Home Economics Club of the Town of Wells, under petition of Fred W. Bayley and others.

Thirty-third—To see what sum of money the Town will vote to raise for Hydrant Rental for the year ensuing.

Thirty-fourth—To see what the Town will vote to do to provide additional room at Div. 2 schoolhouse, and how it will finance the same.

Thirty-fifth—To see what sum of money the Town will raise to pay the Overdraft in the Domestic Arts Course.

Thirty-sixth—To see what sum of money the Town will appropriate to maintain the Domestic Arts course for the ensuing year.

Thirty-seventh—To see what sum of money the Town will vote to appropriate to pay for insurance on its school buildings.

Thirty-eighth—To see what sum of money the Town will vote and appropriate for insurance on the Town Hall Building.

Thirty-ninth—To see what sum of money the Town will vote to raise to aid and help support the County Health Nursing Service.

The pupils of Ogunquit were fortunate in having the State Dental Hygienist in the school this Fall. This was made possible by the Red Cross of the town. The pupils' teeth were examined and cleaned when necessary and special programs regarding dental projects were carried out.

At the request of the teachers and the Supt. of Schools, several special inspections were made during the year due to epidemics of communicable diseases, pediculosis and impetigo. Children were advised to visit their family doctors if the conditions warranted treatment.

Many visits have been made throughout the year for follow up to school children, tuberculosis patients and contacts, preschool, prenatal babies and social service. These visits were for instruction and advice as to care and treatment. Visits were also made to members of organizations to secure help in corrective work.

TRANSPORTATION OF PATIENTS

One child was taken to the Medical Clinic at the Children's Clinic in Portland for a chest examination and X-ray.

One child was taken to the Medical Clinic for examination and recommended for admission and operation. The child was taken later and admitted. His condition improved during his three weeks' stay at the hospital and the operation was not considered necessary.

One child was taken to the School for the Deaf.

One child was taken to the Orthopedic Clinic for the treatment of club feet. She was later admitted for treatment and remained in the hospital four months. Many follow up visits to the home have been made since her return from the hospital, for instruction. In the Fall the child was again taken to the Orthopedic Clinic and her condition found to be greatly improved.

Eight children were taken to and from the Goodall Hospital in Sanford for tonsil and adenoid operations.

Five were paid for through the Ogunquit Red Cross.

Two were paid for through the York County fund.

One was paid for by the family at reduced rates.

Sixteen children were taken to the dentist and treated at clinic rates. Fifty cents for each treatment was charged by the dentist. The children were taken from the school houses and returned before the close of school. Permission was obtained from the parents before the treatment was given.

The report of the Dental Work is as follows:

Examinations and cleanings, 5; extractions of temporary teeth, 15; treatments, 2; permanent teeth extracted with novocaine, 4; permanent teeth filled, 4.

One maternity case and baby was visited and care given both during the winter. A complete baby layette was secured and taken to the family at the time the visit was made. This was an emergency call, and was made at the request of the family physician.

Two children were taken to and from the oculist twice and secured glasses. The payment was made through various sources including a private individual, the local Red Cross, the Parent-Teachers Association, and the Ladies Aid of one of the churches. Both children have improved in health since the treatment which was greatly appreciated by both families.

Two visits were made to one child recently returned from the hospital and a surgical dressing changed, at the doctor's request.

A mother and baby were taken to the family doctor for treatment of the child. Two trips were necessary in order that the doctor might see improvement in treatment. Instruction as to the preparation of the formula was given to the mother at the request of the doctor.

Assistance was given to two families in arranging for sanatorium care. This was done through home visiting.

FARM BUREAU MEETINGS

Three health meetings were held, one at the Village, one at the Branch, and one at Ogunquit. The subject of each meeting was "The First Aid Cabinet" in the home. A model cabinet, containing necessary articles for First Aid in the home was demonstrated. An effort was made to point out the dangers of self-dosing and amateur doctoring and the need of calling the family physician if in doubt as to the seriousness of the situation and if improvement is not prompt. Also the dangers of patent medi-

cines were discussed. Many interesting questions were asked and discussed during the meetings which were well attended.

At the request of the Supt. of Schools, the Audiometer, an apparatus for testing the children's hearing was used in the Village and Ogunquit schools. Through this device, the slightest loss of hearing which a child may have can be detected. By the use of especially arranged earphone, 40 children are tested at one time. Those failing the first test are retested. Many times deafness may be avoided, if attention is paid to diseased tonsils, defective teeth and recurrent colds.

In closing I wish to thank the Supt. of Schools, the teachers, the Wells and Ogunquit Red Cross committee, the Parent-Teachers association, the churches and all who have assisted with the health work this year.

Respectfully submitted,

CHARLOTTE BALDWIN, R. N.,

County Nurse.

REPORT

OF THE

Superintendent of Schools

To the Superintending School Committee of Wells:

I herewith submit my annual report of the schools of Wells.

The school census of April 1, 1932 which includes all persons between the ages of five and twenty-one, was 667.

Last fall school opened with only two changes in our teaching staff. Miss Beula M. Hamilton assumed the duties of Language teacher at the High School and Miss Mildred Harmon began her work with us at the Division 14 school. Both are teachers of successful experience and are doing excellent work in their new positions.

Every school building in town has had some repairs. Each rural school now has a jacketed stove and improved toilet conditions. The high school building and the buildings at Divisions 2 and 5 have been painted outside. At Division 2 the return pipes to the furnace were made larger and several Hoffman valves installed. In addition, at the high school the Language room was renovated at the expense of the class of 1932 and the woodwork in the corridors was varnished. The roof of Division 6 school house was reshingled. At Division 14 the toilets and woodshed were reshingled, the walls of the schoolroom were refinished and new blackboards installed. These changes to the interior made the room very attractive and were much appreciated I think by the pupils and parents of that division. At Division 9 new floors were laid in the dressing rooms or entries and one large window added in order to make the room lighter. There were of course the usual number of minor repairs which I have not attempted to enumerate.

I feel that our schools are improving steadily and it is my purpose to further improvement by changes in text-books to the end that we may be using fundamentally the same texts in all schools of the town. After that is accomplished the teacher should have a definite schedule of accomplishment to aid her in her work. These changes must take place slowly as it is not a good plan

economically to discard text-books that are still usable especially in these difficult times.

I wish to commend especially the teachers of our schools for their willingness to carry out suggested changes and to assist in a careful use of books and supplies. A good teacher means a good school.

Three joint meetings of elementary teachers have been held this year. At these meetings Miss Alice O. Mildram, Principal of the Teachers' Training School at Portsmouth, N. H., Miss Lou Buker, Supervisor of Primary Grades at Augusta; Dr. Pepper, Regional Head of the State Department of Health, and Miss Abbie O. Buck, Director of School Health Service of the Maine Public Health Association discussed matters of professional interest to the teachers. During the winter each teacher is reading a professional book of her own selection upon which she will make a written report to the superintendent.

Under the auspices of the Ogunquit Chapter of the American Red Cross, a Dental Hygienist Service was carried on for one week in the Ogunquit schools. I quote from the Director's report: "As in the past years, the dental hygienist made very careful inspections of the children's teeth, gave health talks and performed prophylactic treatments for those children whose parents gave their written consent." I feel that this is a most valuable service to our children and I wish it might be extended by some means to all our schools.

I feel that our finances have been wisely managed by the School Committee this year as is proved by our financial report. There has been no overdraft in any account. On the contrary, substantial balances are shown in all accounts in which expenditures are not exactly equal the amount available.

The following appropriations are requested for the year 1933-1934.

	Amount	% Decrease from 1932

I wish to express my appreciation for the cooperation of the teachers and school committee and my thanks to all others who have helped in the work of the schools.

Respectfully submitted,

JOHN S. CARVER.

WELLS HIGH SCHOOL REPORT—1932-1933

There were one hundred twenty-one pupils enrolled at Wells High School at the beginning of the Fall Term. Sixty-three were girls and fifty-eight were boys. They were divided into classes as follows: Post Graduates, 3; Seniors, 18; Juniors, 31; Sophomores, 26; Freshmen, 43.

The courses offered this year are :Classical, Scientific, Domestic Arts and General.

The extra-curricula activities comprise: dramatics, debating and athletics.

Wells High has joined the Bates Interscholastic Debating League again this year and is to debate with teams representing Cheverus High of Portland, and Freeport High.

A student council was organized last spring. It aims to promote better scholarship and school spirit. Several valuable suggestions have been put into effect as a result of its work. The council members in a recent assembly program conducted an exhibition business meeting for the purpose of presenting the fundamentals of parliamentary law to the student body. At the suggestion of the council, a scholarship banner has been given to the school by the P. T. A. This banner is awarded at each of the six week ranking periods to the class maintaining the highest scholastic average.

The Senior and Junior classes have given presentations of one-act plays. A minstrel show was given by the school.

Miss Ethel Weymouth is handling both her classroom and extra-curricula work in the same efficient manner.

Miss Dorothy Scott is obtaining the same fine results with the Domestic Arts course.

Miss Beula Hamilton has been added to the faculty to succeed Miss Baker as teacher of languages. She has proven herself a very valuable member of the faculty and we are indeed fortunate in having the language department in the hands of so capable a teacher.

The transportation has been very efficiently handled by Mr. Huckins.

Mrs. Howard has run a very satisfactory lunch room.

Mr. Clarrage is as faithful and reliable as ever in the performance of his duties.

I have enjoyed my work in Wells this year more than ever. The reports of students in higher institutions of learning show that Wells High has a very efficient scholastic standard. It is my earnest desire to maintain this standard and to serve the parents and citizens as well.

I sincerely thank the citizens of Wells, the superintending school committee, the superintendent of schools, the parents, the teachers and pupils for their cooperation this year and I sincerely hope we may continue to work together in the future.

AURA W. COLEMAN.

DOMESTIC ARTS

I feel that the Domestic Arts Course, which was introduced into the High School last year, is met with much enthusiasm and increasing interest by the pupils who are enrolled in the course.

There have been some changes made in the units taught within the course this year. The studies have not all been interpreted in terms of household activities such as sewing, but social and art problems have also been included.

The first half year, a study of the following were made: Clothing Construction and Selection, Fabrics, Interior Decoration, Foods and Nutrition, and Household Budgets.

All these are of practical value, and are called productive studies. The main objective of the sewing course is to give the student ability to sew or to make clothing. In the Selection of Clothing, to attain knowledge and appreciation in clothing values; for

example, learning the quality of fabrics and standards in construction as well as the appreciation of colors and how they are adapted to the characteristics of a particular person.

In the study of Interior Decoration, we study the planning and the furnishings for a room or groups of rooms, and learn to choose good designs in rugs, hangings, furniture, and walls; also how to make all detailed designs combine into a harmonious whole.

In the study of Foods and their nutritive value, the students get a definite idea of the nutritive value of each type of food used in the dietary and of their relative value. They also learn the amount of each food material that should be used by the individual or of the family.

The purpose of a study of Budgets is to help the student appreciate the meaning of an efficient standard of living and the need of controlling their own standards through intelligent apportionment of their own allowances or family income.

The second half of the year will be devoted to Child Care, Family Relationships, and a further study in Clothing Construction.

Child Care will consist of a study of the general care, exercise, bathing, food and clothing of infants and young children; an understanding of child psychology and training of children; infant mortality and the common diseases of childhood, their control and prevention.

Family Relationships is a study of the family, of the necessity of establishing family ideals, and standards of family life.

I believe that this complete course in Home Economics gives the student some practical idea of home making and will be of value to them throughout their lives.

DOROTHY M. SCOTT.

REPORT OF MUSIC SUPERVISOR

To the Superintendent of Schools:

I herewith submit the annual report as Music Supervisor of the schools of Wells.

Very superior work can be reported of all the schools this year with higher intelligence and better appreciation of their work. In every case of outstanding work the reason can be traced back to the beginning of school where was received intelligent and careful training from the grade teacher and su-

pervisor. All the work of the upper grades is distinguished by good tone quality and a feeling for proper rhythm and expression. This year we have in use in three schools a Junior High Song Book which is used in all the large schools and which the boys especially enjoy.

The students in the High School who are interested in music have until now worked on special program music. Now they have formed two glee clubs, a girls' and a boys', and I am sure will enjoy working in that arrangement during the remainder of the year. The High school orchestra consists of six regular members and they deserve much credit from teachers and fellow students for working under great difficulties and trying to contribute toward the standing of the school.

I take this opportunity to extend my heartiest thanks to the Superintendent, the teachers, and the pupils for their cooperation and helpfulness during the year.

Faithfully submitted,

AZALEA WILSON.
